

Unlock Seamless Payment Management with SportsPay Transfers

Transfers by SportsPay give you the power to move funds between merchants or share payments across multiple recipients effortlessly. Whether you're managing complex transactions, splitting payments for multiple parties, or sharing revenue, our Transfers functionality ensures you have the flexibility and control you need.

With SportsPay, you can make payment management smoother and more efficient - no matter the scenario.

Key Benefits of SportsPay Transfers

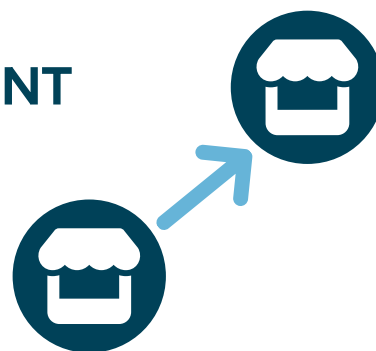

- **Instantly Send Payments Between Merchants:** Move funds quickly and securely between merchants for things like paying membership fees.
- **Simplify Multi-Party Transactions:** Split payments easily across multiple recipients in a single, seamless process.
- **Complete Control & Transparency:** Track every transaction in real time with full visibility of funds distribution and status.

1. INTER-MERCHANT TRANSFERS: EFFORTLESS PAYMENT MOVEMENT

Send Payments Between Merchants

Sending funds between merchants has never been easier. Whether you're distributing revenue, covering expenses, or handling multi-party payments, SportsPay's Inter-Merchant Transfers make it fast and simple.

- **Instant Transfers** – Send funds between accounts with just a few clicks.
- **Streamline Business Payments** – Make payments to partners, affiliates, or vendors quickly and securely.

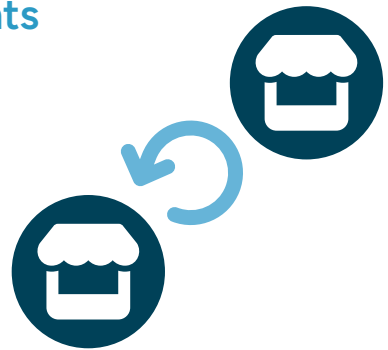

EXAMPLE REQUEST:

Just set the parameters - merchant IDs, amounts, and details - and you're good to go. It's that simple!

Reverse Transfers: Quick and Easy Adjustments

Need to correct a mistake or reverse a transaction?
With SportsPay, reversing a transfer is as easy as sending one.
No hassle, just a quick fix when things don't go as planned.

- **Hassle-Free Reversals** – Easily reverse any transaction with minimal steps.
- **Peace of Mind** – If something goes wrong, SportsPay makes it easy to undo it.

2. SPLITS: DISTRIBUTE PAYMENTS LIKE A PRO

Split Payments Across Multiple Recipients

Why send multiple transfers when you can handle them all in one?
SportsPay's Split feature allows you to distribute a single transaction amount across several parties in one seamless operation.

- **Simplify Complex Payments** – Pay multiple parties in one transaction without the extra work.
- **Boost Efficiency** – Cut down on the number of transactions and streamline your payment process.

Send Splits in Seconds

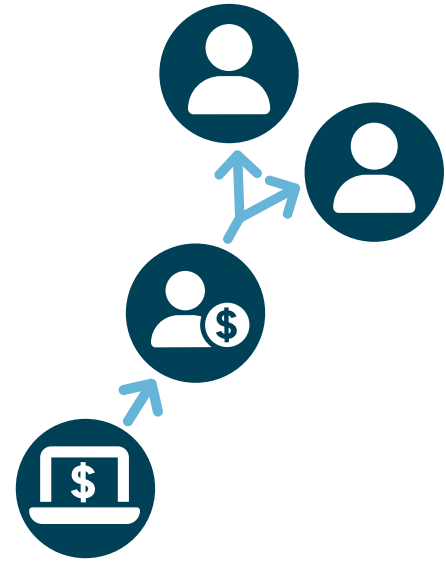

Distribute payments in real-time with the ability to send money to multiple recipients in a single go. Whether it's for memberships, commissions, or event fees, SportsPay makes it easy to handle it all.

3. REAL-WORLD EXAMPLE

How It Works for a Baseball Club

Imagine a Baseball Club collecting registration fees and distributing them to different parties like the National Sports Organization, Provincial Governing Body, and Registration Platform. With SportsPay, it's as easy as 1-2-3:

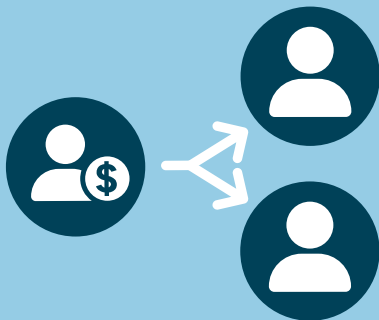

- **Total Payment to Club** – The parent pays a total amount for registration.
- **Funds Split to Recipients** – The Baseball Club then distributes the funds across multiple recipients (National Body, Provincial Body, Registration Platform).

4. WHEN TO USE EACH OPTION

Use Splits

Perfect for when you need to distribute payments instantly and want to keep things simple with a single transaction. Ideal for businesses or organizations handling multiple parties with one payment.

Use Inter-Merchant Transfers

Best for when you want to manage payments more individually - whether it's sending funds across different timeframes, or needing more control over when and how funds are distributed.
